

Procurement lot 1

LOT 1 INTEGRATED COMMUNITY SERVICES

This LOT is focussed on the delivery of integrated community services structured in a way so as to deliver the clinical vision building on the three pillar of our strategy of collective accountability, care co-ordination and population management, demonstrating how services will be provided sensitive to local health and service need, addressing health inequalities, wrapped around the patient focussed on our neighbourhoods

The scope of this LOT is expected to include the following services

Adult Therapies – OT	Appliances
Adult Therapies – SALT	Chronic Care Co-ordinators
Adult Therapies – Neuro rehab	CERT
Adult Therapies – physiotherapy	care co-ordination
Geriatrician / Extensivist / GPwSIs / Advanced Nurse Practitioners community support	Cardiac Rehab
Community matrons	Community IV Therapy service
Community Respiratory & oxygen services	Community Heart Failure Service
Diabetes	Continence and urology
Discharge Coordinators / facilitation team	District nurses (domiciliary & clinic based)
Dietetics	Falls team
Phlebotomy	Palliative Care
Pulmonary rehab	Podiatry
Single point of access	Stoma Care
Stroke rehab	Tissue viability

LOT 2

This LOT is focussed on the delivery of the urgent care part of vision for our new model of care in west Lancashire which offers a reliable and comprehensive alternative to A&E but works cohesively and integrates thoroughly with the delivery of integrated community care, particularly the urgent care element.

The scope of this LOT is expected to cover

- General Practice out of hours service
- Walk in centres
- Acute Visiting Service.

As well as meeting the overall four main outcomes of this procurement, it is proposed that this LOT will contribute to the delivery of a more efficient and effective urgent care system which results in a reduction in attendance at A&E and educates patients as to their right place to access the right care at the right time

Cohesive with the community services LOT, this urgent care LOT may want to consider how to provider alternatives locations for ambulatory care sensitive conditions to reduce the need for hospital attendance / admission
