

Community health services re-procurement – May 2016

What's the purpose of today?

- Chance for further discussions between the CCG and community staff
- Follow on from previous sessions in January 2016, and some engagement in 2015.
- Ask any questions about the future vision, process & how you can get involved
- HR representation from the ICO is present

The process itself

- The process is subject to national procurement legislation which requires CCGs to enable **all NHS and private providers to compete**, and only proceed if they are successful following evaluation against set criteria.
- Our process follows a **set process and criteria**
- The CCG must adhere to **national procurement law** and statutory obligations
- We are following a '**competitive dialogue**' method of procurement (different approach to NHS Southport & Formby CCG) meaning we can get it right.
- We have a series of in-depth discussions with potential bidders and can **revisit any issues** that we are not satisfied with
- The **process is still ongoing** with another two rounds of dialogue to take place

Where is the process up to?

Following evaluation process, we are talking to the following organisations.

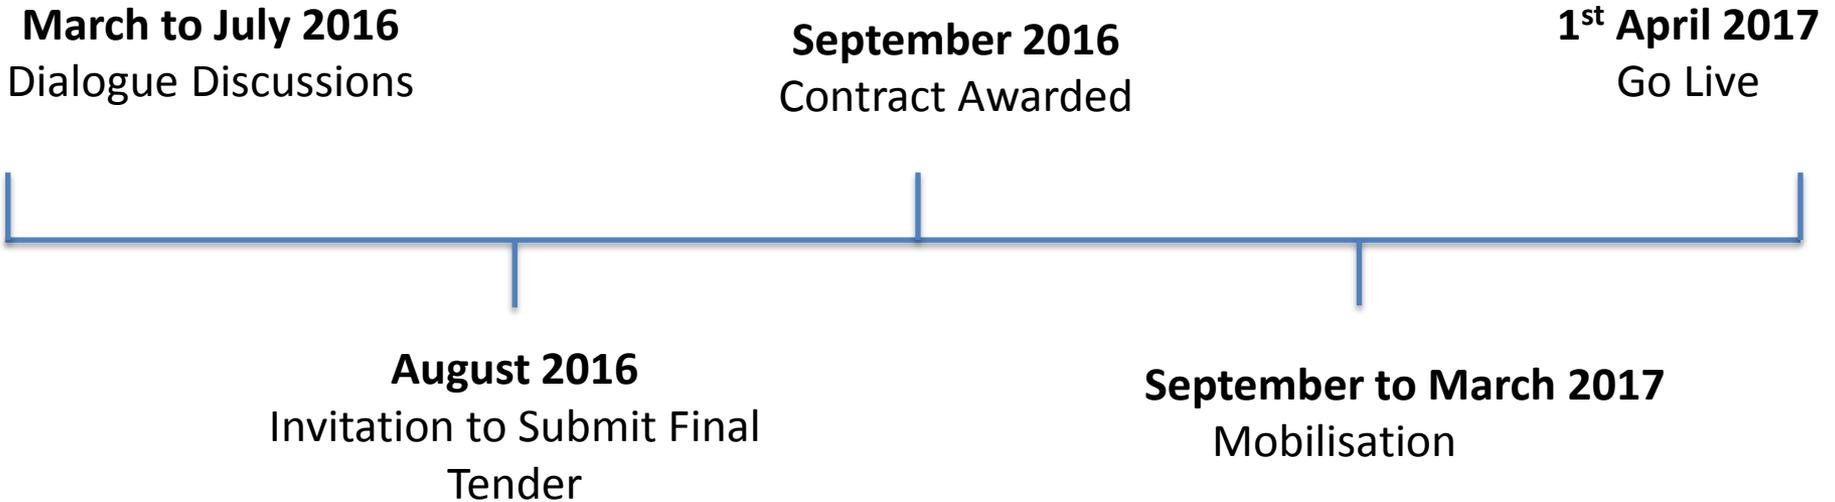

COMMUNITY HEALTH SERVICES (LOT 1)

- Optum Health Solutions (UK) Ltd
- Virgin Care Services
- Bridgewater Community Healthcare NHS Foundation Trust
- Lancashire Care NHS Foundation Trust

URGENT CARE SERVICES (LOT 2)

- Optum Health Solutions (UK) Ltd
- Virgin Care Services

Procurement timescales

Procurement scope – Lot 1

| LOT 1 | |
|--|--|
| <p>This LOT is focussed on the delivery of integrated community services structured in a way so as to deliver the clinical vision building on the three pillars of our strategy of; collective accountability, care co-ordination and population management, demonstrating how services will be provided sensitive to local health and service need, addressing health inequalities, wrapped around the patient focussed on our neighbourhoods</p> | |
| <p>The scope of this LOT is expected to include the following services</p> | |

| Lymphoedema services | Palliative Care |
| Phlebotomy | Podiatry |
| Pulmonary rehab | rehab step up/step down beds |
| Single point of access | Stoma Care |
| Stroke rehab | Tissue viability |

Procurement scope – Lot 2

LOT 2

This LOT is focussed on the delivery of the urgent care part of vision for our new model of care in west Lancashire which offers a reliable and comprehensive alternative to A&E but works cohesively and integrates thoroughly with the delivery of integrated community care, particularly the urgent care element.

The scope of this LOT is expected to cover

- General Practice out of hours service
- Walk in centres
- Acute Visiting Service.

As well as meeting the overall four main outcomes of this procurement, it is proposed that this LOT will contribute to the delivery of a more efficient and effective urgent care system which results in a reduction in attendance at A&E and educates patients as to their right place to access the right care at the right time

Cohesive with the community services LOT, this urgent care LOT may want to consider how to provider alternatives locations for ambulatory care sensitive conditions to reduce the need for hospital attendance / admission

Further information

- Some members of staff put themselves forward to become more involved in process in January. We will be in touch with those individuals directly this month to discuss their participation.
- Dedicated webpage contains latest information, including any colleagues who cannot attend these sessions:
<http://www.westlancashireccg.nhs.uk/have-your-say/community-health-services/>
- The January staff/CCG sessions involved an open and interactive conversation with you. Thank you to those who came along.
- A report (which contains themes from patient and staff insight) is available on our website

Any questions?
